Subject: VA/GSA Community Based Outpatient Clinic Issue

Good morning Lisa,

I was hoping to touch base with you regarding an issue that has been going on in Florida's 6th Congressional District in St. Augustine, but I believe could be more wide-spread from discussions with the House Veteran Affairs Committee. There is a VA Community Based Outpatient Clinic in St. Augustine whose property was purchased by Lowe's a year ago and is set to take control of the property after March of next year. Due to delays in the leasing process for future VA CBOCs, etc., there isn't concrete plans right now on what to do to continue service to the area's 5,000 veterans.

Our understanding is that the county has offered land free of charge for the VA to set up a modular temporary facility while the longer-term facility is constructed since they won't be able to complete it by March 31 of next year. Things looked like they were going forward until a cease and desist order was given by the VA due to what they claim is a nation-wide moratorium on new leases while an inter-agency dispute between the GSA and the VA is resolved.

In the meantime, the local community and its veterans have unclear information about the continuation of services as well as being held up from continuing them on a temporary basis at the modular unit due to this agency dispute. I was hoping you could potentially shed some light on what is causing this if this is the case? Congressman DeSantis and Senator Rubio wrote a letter regarding the issue to the VA Acting Secretary last week, and I know they continue to be dismayed by what is causing these problems.

Thanks,

-Dustin

Morning Nate,

Thanks again for discussing the St. Augustine CBOC situation with me yesterday. I really do appreciate you all looking in to it, but I wanted to let you know that my boss and Sen. Rubio talked last night and discussed sending a letter to the Administrator and Acting Secretary Gibson soon regarding the situation to clarify and informed me this morning. Please let me know if I can help provide any additional information, etc. and looking forward to touching base again soon.

Good morning Lisa,

Hope you're doing well. I was hoping to track down some information regarding leases for VA community based outpatient clinics. We've been dealing with an issue with a CBOC in St. John's County in St. Augustine that's been delayed trying to figure out their new leasing arrangements that we were told used to be part of VA arrangements but has recently been changed back or changed to a full GSA leasing process. Are you aware of issues regarding VA leased facilities and their potential changing requirements/status back to a GSA process? Many thanks in advance for any guidance you can provide.

<MSG>

Dear Congressman Desantis, My name is Michael Carini. I am currently a member of the Florida Army National Guard. I am assigned to Charlie Battery 1/265 air defense artillery. I am currently deployed to Afghanistan, when I was activated for active duty I was told about the army's daycare assistance that is available for national guard soilders who are activated for active duty. After reading from naccrra.org website which is the agency in charge on how to file the application we did as it instructed us too. We couldn't file until after a month because they needed a month worth of LES's. After filing we waited. A month went by and did not hear anything. I tried calling and never had anyone answer the phone. I then had to leave a voice mail and a call was never returned. I then emailed and received a genric email stating I will be contacted but never was. I received an email from them to make a correction to the application and my wife fixed it and sent it back. We have been trying to hear back from anyone from the agency but no one has ever contacted us about our status. We then contacted my units family readniess group. They have been trying to contact them but got the same results. We submitted the application in April and now it is July. In my civilian job I am a police officer and my children do not go to daycare full time because of my rotating shift. Now that I am deployed they have to go full time. The price of daycare is \$340 a week for two children. Due to the cost of daycare my wife's paychecks basically pay for the daycare which is leaving only mine to pay for bills and groceries. Since the daycare assistance has not kicked in money is very tight for my family back home. My wife is stressed about me being deployed in a hosilte area and now she is getting even more stress financially. The family readniess contacted my wife yesterday and told her no one for their office can get a hold of anyone. They also said we are not the only famil
y
having this problem. In their email they told my wife it has never been this much trouble and we should contact our congressman. Congressman I am asking you to please look into this matter. Due to the cost of daycare my wife is going to have to quit her job since she is just working to pay for daycare. There is only so much I can do here from Afghanistan to help her that is why I am writing you. I provided my wife's phone number so if someone from your office wants to find out more information they can call her. My wife's name is ashley carini. Thank you for taking the time to read this email and I hope you are able to help us in this situation. Thank you Michael Carini

Michael J Carini

Subject: VA/GSA Community Based Outpatient Clinic Issue

Good morning Lisa,

I was hoping to touch base with you regarding an issue that has been going on in Florida's 6th Congressional District in St. Augustine, but I believe could be more wide-spread from discussions with the House Veteran Affairs Committee. There is a VA Community Based Outpatient Clinic in St. Augustine whose property was purchased by Lowe's a year ago and is set to take control of the property after March of next year. Due to delays in the leasing process for future VA CBOCs, etc., there isn't concrete plans right now on what to do to continue service to the area's 5,000 veterans.

Our understanding is that the county has offered land free of charge for the VA to set up a modular temporary facility while the longer-term facility is constructed since they won't be able to complete it by March 31 of next year. Things looked like they were going forward until a cease and desist order was given by the VA due to what they claim is a nation-wide moratorium on new leases while an inter-agency dispute between the GSA and the VA is resolved.

In the meantime, the local community and its veterans have unclear information about the continuation of services as well as being held up from continuing them on a temporary basis at the modular unit due to this agency dispute. I was hoping you could potentially shed some light on what is causing this if this is the case? Congressman DeSantis and Senator Rubio wrote a letter regarding the issue to the VA Acting Secretary last week, and I know they continue to be dismayed by what is causing these problems.

Thanks,

-Dustin

Hi Sue,

GSA's Army Childcare Fee Assistance folks looped back with the following:

The (b) (6) received their benefit letters on July 16. GSA sent a confirmation email to the family and included contact information should any further questions/assistance be needed.

This issue is now resolved- Please let me know if you have any questions.

Thanks,

Liz

Subject: VA/GSA Community Based Outpatient Clinic Issue
To: "lisa.austin@gsa.gov" <lisa.austin@gsa.gov>
Cc:

Good morning Lisa,

I was hoping to touch base with you regarding an issue that has been going on in Florida's 6th Congressional District in St. Augustine, but I believe could be more wide-spread from discussions with the House Veteran Affairs Committee. There is a VA Community Based Outpatient Clinic in St. Augustine whose property was purchased by Lowe's a year ago and is set to take control of the property after March of next year. Due to delays in the leasing process for future VA CBOCs, etc., there isn't concrete plans right now on what to do to continue service to the area's 5,000 veterans.

Our understanding is that the county has offered land free of charge for the VA to set up a modular temporary facility while the longer-term facility is constructed since they won't be able to complete it by March 31 of next year. Things looked like they were going forward until a cease and desist order was given by the VA due to what they claim is a nation-wide moratorium on new leases while an inter-agency dispute between the GSA and the VA is resolved.

In the meantime, the local community and its veterans have unclear information about the continuation of services as well as being held up from continuing them on a temporary basis at the modular unit due to this agency dispute. I was hoping you could potentially shed some light on what is causing this if this is the case? Congressman DeSantis and Senator Rubio wrote a letter regarding the issue to the VA Acting Secretary last week, and I know they continue to be dismayed by what is causing these problems.

Thanks,

-Dustin

Good morning Lisa,

Hope you're doing well. I was hoping to track down some information regarding leases for VA community based outpatient clinics. We've been dealing with an issue with a CBOC in St. John's County in St. Augustine that's been delayed trying to figure out their new leasing arrangements that we were told used to be part of VA arrangements but has recently been changed back or changed to a full GSA leasing process. Are you aware of issues regarding VA leased facilities and their potential changing requirements/status back to a GSA process? Many thanks in advance for any guidance you can provide.

Subject: Fwd: St. Augustine District Office Furniture (FL-6)

Mike,

Please see the e-mail below from Shira Lahav of Rep. Ron DeSantis' (FL06) DC office staff. I'm sending this FYI, so that you are aware of what could develop into a bigger situation. I've spoken to, Shira upon receiving it. I am addressing the issues she brought to my attention (in the preceding e-mail and in our telephone conversation) and have also referred her to First Call.

- The furniture was "inherited" from Rep. Mica's offices with a few items that had belonged to former Rep. Adams added to it. Some of these items had been viewed by Rep DeSantis' staff when they looked at Rep. Mica's closing offices to decide if they were going to take the spaces as "turn-key". So they had some familiarity with the type and quality of the items. I have a letter from Rep. DeSantis stating that he "would like to have any and all excess properties or furnishings no longer needed or being used by Congressman Mica within his district offices."

- I did not select any items to be delivered. All items that went into storage for Rep. Mica and the small quantity from Rep. Adams were delivered. I did not "deem anything usable"; I simply delivered the very furniture and equipment that Rep. Mica had been using up until the end of the 112th Congress.

- I did specifically inform the St. Augustine office staff that Rep. Mica had older and much utilized furniture and that he is not one to purchase new items frequently. So I requested that they accept only what they felt they could use and that would be acceptable in the St. Augustine office and to return anything they didn't want with the movers

- The furniture was delivered on Monday (1/25/13). I contacted the St. Augustine office during the move-in. They said everything went well, most of the items were accepted. I received no feedback of dissatisfaction with the delivery, placement of the items, quality of the furniture or the service in general.

- I received this message with the accompanying complaints and allegations today during my return from the Region 4 COOP exercise. I immediately called Shira Lahav to clarify what the problems were. I informed Shira that I can arrange to pick up any items that they identify to be unsuitable. I also informed her that there is not a stock of available excess furniture, but when we do locate pieces that seem to be suitable for congressional office use, we contact the local office and offer those items to

them.

- I also referred Shira to First Call. I said that if they were in need of new furniture to replace any or all items that GSA delivered that they can't use, First Call could advise and assist them in the purchasing process. Shira informed me that she "would NOT be buying ANY furniture." I reiterated that GSA does not have a warehouse of excess furniture to provide and that we also cannot provide new furniture to them. New furniture would have to be purchased through First Call. And, I again referred her to the First Call office.

- After the call concluded with Shira, I contacted Carlos Leon at First Call. Carlos had been copied on the original message below. Charlene Best was in Carlos' office and she had just gotten off the phone with Shira Lahav. In short, Charlene relayed the same information to Shira that I had. I informed Carlos and Charlene that I would check with my movers to see what guidance they had received from Rep. DeSantis' staff in St. Augustine as to placement of the furniture. But as I previously stated, the movers were still on-site when I spoke with the St. Augustine staff and they did not indicate any dissatisfaction with the service they were receiving.

I will conclude this as I've gotten too verbose, as usual. My intent is to inform you of the potential issue(s) in case it is elevated. I also intend to work to correct what I can and salvage the situation as much as possible. Unfortunately, this happens frequently in these transitions and the finger gets pointed at GSA as the culprit. I received a similar e-mail from this same person (Shira) two weeks ago with similar accusations but primarily having to do with their computers and other electronic equipment. I won't go into the details here, but GSA was made the culprit in that e-mail, as well. The solution from the CAO was to send 4 free computers to the district office. I think Shira is looking for that solution to this issue, too. Carlos and Charlene said that is not going to happen.

Please let me know if you have any questions.

Regards,

Randy Beers

Randy:

I did just leave you a voicemail at the office, but perhaps email will be a quicker way to get in touch. I just got off the phone with Roy from the St. Augustine office who gave me a detailed update with how the office move / furniture was handled. Frankly, this whole transition has become completely unacceptable.

The moving company simply "dropped" all the furniture in the office not arranging it or organizing it – but rather leaving filing cabinets piled against walls, desks in the middle of rooms, etc...

Additionally: The condition of some of the furniture we inherited is nothing short of deplorable. This is for a US Congressman and to have ripped chairs and bent furniture in his district office is unacceptable. I understand he is a freshman, and having worked in freshmen offices before, I understand how the "chain of command" with furniture works – but for the Congressman to be embarrassed to have meetings in this district office because of the condition of the furniture we inherited, as deemed "useable" by the GSA, is unacceptable.

This needs to be resolved today. We have meetings we want to have in the office this week and The Congressman is sick and tired of getting the runaround regarding the setup of the district offices.

If there is a supervisor or someone else I need to speak with, please advise ASAP.

Thank You,
Shira

Morning Nate,

Thanks again for discussing the St. Augustine CBOC situation with me yesterday. I really do appreciate you all looking in to it, but I wanted to let you know that my boss and Sen. Rubio talked last night and discussed sending a letter to the Administrator and Acting Secretary Gibson soon regarding the situation to clarify and informed me this morning. Please let me know if I can help provide any additional information, etc. and looking forward to touching base again soon.

Cc:

Good morning Lisa,

I was hoping to touch base with you regarding an issue that has been going on in Florida's 6th Congressional District in St. Augustine, but I believe could be more wide-spread from discussions with the House Veteran Affairs Committee. There is a VA Community Based Outpatient Clinic in St. Augustine whose property was purchased by Lowe's a year ago and is set to take control of the property after March of next year. Due to delays in the leasing process for future VA CBOCs, etc., there isn't concrete plans right now on what to do to continue service to the area's 5,000 veterans.

Our understanding is that the county has offered land free of charge for the VA to set up a modular temporary facility while the longer-term facility is constructed since they won't be able to complete it by March 31 of next year. Things looked like they were going forward until a cease and desist order was given by the VA due to what they claim is a nation-wide moratorium on new leases while an inter-agency dispute between the GSA and the VA is resolved.

In the meantime, the local community and its veterans have unclear information about the continuation of services as well as being held up from continuing them on a temporary basis at the modular unit due to this agency dispute. I was hoping you could potentially shed some light on what is causing this if this is the case? Congressman DeSantis and Senator Rubio wrote a letter regarding the issue to the VA Acting Secretary last week, and I know they continue to be dismayed by what is causing these problems.

Thanks,

-Dustin

Subject: Leasing for VA facilities
To: "lisa.austin@gsa.gov" <lisa.austin@gsa.gov>

Good morning Lisa,

Hope you're doing well. I was hoping to track down some information regarding leases for VA community based outpatient clinics. We've been dealing with an issue with a CBOC in St. John's County in St. Augustine that's been delayed trying to figure out their new leasing arrangements that we were told used to be part of VA arrangements but has recently been changed back or changed to a full GSA leasing process. Are you aware of issues regarding VA leased facilities and their potential changing requirements/status back to a GSA process? Many thanks in advance for any guidance you can provide.

-Dustin

Subject: V A /G S A C ommunity Based Outpatient C linic Issue

Good morning Lisa,

I was hoping to touch base with you regarding an issue that has been going on in Florida's 6th Congressional District in St. Augustine, but I believe could be more wide-spread from discussions with the House Veteran Affairs Committee. There is a VA Community Based Outpatient Clinic in St. Augustine whose property was purchased by Lowe's a year ago and is set to take control of the property after March of next year. Due to delays in the leasing process for future VA CBOCs, etc., there isn't concrete plans right now on what to do to continue service to the area's 5,000 veterans.

Our understanding is that the county has offered land free of charge for the VA to set up a modular temporary facility while the longer-term facility is constructed since they won't be able to complete it by March 31 of next year. Things looked like they were going forward until a cease and desist order was given by the VA due to what they claim is a nation-wide moratorium on new leases while an inter-agency dispute between the GSA and the VA is resolved.

In the meantime, the local community and its veterans have unclear information about the continuation of services as well as being held up from continuing them on a temporary basis at the modular unit due to this agency dispute. I was hoping you could potentially shed some light on what is causing this if this is the case? Congressman DeSantis and Senator Rubio wrote a letter regarding the issue to the VA Acting Secretary last week, and I know they continue to be dismayed by what is causing these problems.

Thanks,

-Dustin

Subject: Re: Equipment in District Office

Good afternoon Shira,

The process is pretty much the same as for the DC office. An Equipment Removal Form (available on HouseNet) is filled out with the respective items information and then signed by the Member. This form is sent to the First Call office there in DC. It can be sent directly to kelly.boger@mail.house.gov, since she handles the Florida offices. Kelly processes the Equipment Removal Form (ensures the items are removed from the inventory in the CAO database) and then she sends a copy on to me. This becomes my authorization to have a vendor come and remove the items and have them disposed of properly. That's pretty much all there is to it.

Regards,

Randy Beers

Shira,

I've set up the delivery of the furniture in storage (from Rep. Mica's former offices) for Monday afternoon (1/25/13). I've spoken with Robert and given him a tentative arrival time of 1:00PM. The movers will call during loading on Monday morning and give Robert or Roy any adjustments to that time as they get underway on Monday. FYI, the moving company is DC Moore & Son so you know who the call is coming from.

Please let me know if you have any questions or if you need my assistance at any time during the move.

Randy:

I hope this email finds you well. Getting our district up and running has certainly been a frustrating process, and while I am a patient person and can appreciate how busy things are during the transition, frankly – my patience is running out and it's time to get some answers and get this set up complete.

Attached you'll find the list of our inherited district inventory complete with 10 Desktops (9 Dell, 1 HP) and 4 Laptops (3 Dell, 1 HP).

To date, we are still unable to access the house network and log in to the computers because of improper set up.

The Set Up in Port Orange consisted of:

- 1 HP Desktop (serial number L1908wm) – with a “To Be Removed by GSA” Sticker on it – (I can only wonder... Why was this installed in the first place?)
- 1 Dell Laptop CAO Sticker B304040
- 1 HP Compaq 8510 US House of Rep Sticker A289505
- Cannon CanoScan LiDE 200- Has a House of Rep sticker, but no inventory number

As you can see, none of these items appear on our inventory – What happened here?

I need 3 of the Desktops from the inventory delivered and installed to the Port Orange Office IMMEDIATELY. Our district staff has been unable to log-in to the network for 2 weeks now, and this is unacceptable.

Next week, our lease will be finalized in St. Augustine. That office will require: 4 Desktop Work Stations and the HP Printer Set Up and Installed on January 22 or 23 (exact date TBD, which I'll get to you by the end of the week).

That will leave us with 3 Desktop Computers and 4 Laptops remaining in our inventory.

I sincerely hope you can appreciate my frustration with this transition process. **I have assured my district staff I am on it and that the Port Orange office will be up and running by this Wednesday morning** – And I am not going to leave my district staff hanging on this.

Randy – I'm not about placing blame, finger pointing, or anything like that – all I know is this needs to be fixed and needs to be fixed now. Truth be told, our Congressman is beginning to feel like a second-class citizen in this transition because it seems as though little attention or regard is being paid to setting up his district office(s).

I'll welcome a phone conversation if you'd rather – but either way, I'll look to hear from you tomorrow morning. It's time to get on the same page with this so that I can get my offices going.

Best,
Shira

Subject: Issues with District Office

To: "randy.beers@gsa.gov" <randy.beers@gsa.gov>

Cc: "Roth, Justin" <Justin.Roth@mail.house.gov>

Randy:

I hope this email finds you well. Getting our district up and running has certainly been a frustrating process, and while I am a patient person and can appreciate how busy things are during the transition, frankly – my patience is running out and it's time to get some answers and get this set up complete.

Attached you'll find the list of our inherited district inventory complete with 10 Desktops (9 Dell, 1 HP) and 4 Laptops (3 Dell, 1 HP).

To date, we are still unable to access the house network and log in to the computers because of improper set up.

The Set Up in Port Orange consisted of:

- 1 HP Desktop (serial number L1908wm) – with a “To Be Removed by GSA” Sticker on it – (I can only wonder...Why was this installed in the first place?)
- 1 Dell Laptop CAO Sticker B304040
- 1 HP Compaq 8510 US House of Rep Sticker A289505
- Cannon CanoScan LiDE 200- Has a House of Rep sticker, but no inventory number

As you can see, none of these items appear on our inventory – What happened here?

I need 3 of the Desktops from the inventory delivered and installed to the Port Orange Office IMMEDIATELY. Our district staff has been unable to log-in to the network for 2 weeks now, and this is unacceptable.

Next week, our lease will be finalized in St. Augustine. That office will require: 4 Desktop Work Stations and the HP Printer Set Up and Installed on January 22 or 23 (exact date TBD, which I'll get to you by the end of the week).

That will leave us with 3 Desktop Computers and 4 Laptops remaining in our inventory.

I sincerely hope you can appreciate my frustration with this transition process. **I have assured my district staff I am on it and that the Port Orange office will be up and running by this Wednesday morning** – And I am not going to leave my district staff hanging on this.

Randy – I’m not about placing blame, finger pointing, or anything like that – all I know is this needs to be fixed and needs to be fixed now. Truth be told, our Congressman is beginning to feel like a second-class citizen in this transition because it seems as though little attention or regard is being paid to setting up his district office(s).

I’ll welcome a phone conversation if you’d rather – but either way, I’ll look to hear from you tomorrow morning. It’s time to get on the same page with this so that I can get my offices going.

Best,
Shira

Good Morning Carlos,

Regarding the computers: Was the shipment to the Port Orange or the St. Augustine office?

FYI: I've got furniture shipping to the new St. Augustine office today. It should be arriving early this afternoon.

Carlos,

I need to talk with someone about the message below which I received this morning. I've already done some checking on this and have some answers, but ultimately someone from the CAO/First Call office is going to need to contact the sender, Shira Lahav, of Congressman DeSantis' staff.

Randy:

I did just leave you a voicemail at the office, but perhaps email will be a quicker way to get in touch. I just got off the phone with Roy from the St. Augustine office who gave me a detailed update with how the office move / furniture was handled. Frankly, this whole transition has become completely unacceptable.

The moving company simply “dropped” all the furniture in the office not arranging it or organizing it – but rather leaving filing cabinets piled against walls, desks in the middle of rooms, etc...

Additionally: The condition of some of the furniture we inherited is nothing short of deplorable. This is for a US Congressman and to have ripped chairs and bent furniture in his district office is unacceptable. I understand he is a freshman, and having worked in freshmen offices before, I understand how the “chain of command” with furniture works – but for the Congressman to be embarrassed to have meetings in this district office because of the condition of the furniture we inherited, as deemed “useable” by the GSA, is unacceptable.

This needs to be resolved today. We have meetings we want to have in the office this week and The Congressman is sick and tired of getting the runaround regarding the setup of the district offices.

If there is a supervisor or someone else I need to speak with, please advise ASAP.

Thank You,
Shira

Mike,

Please see the e-mail below from Shira Lahav of Rep. Ron DeSantis' (FL06) DC office staff. I'm sending this FYI, so that you are aware of what could develop into a bigger situation. I've spoken to, Shira upon receiving it. I am addressing the issues she brought to my attention (in the preceding e-mail and in our telephone conversation) and have also referred her to First Call.

- The furniture was "inherited" from Rep. Mica's offices with a few items that had belonged to former Rep. Adams added to it. Some of these items had been viewed by Rep DeSantis' staff when they looked at Rep. Mica's closing offices to decide if they were going to take the spaces as "turn-key". So they had some familiarity with the type and quality of the items. I have a letter from Rep. DeSantis stating that he "would like to have any and all excess properties or furnishings no longer needed or being used by Congressman Mica within his district offices."

- I did not select any items to be delivered. All items that went into storage for Rep. Mica and the small quantity from Rep. Adams were delivered. I did not "deem anything usable"; I simply delivered the very furniture and equipment that Rep. Mica had been using up until the end of the 112th Congress.

- I did specifically inform the St. Augustine office staff that Rep. Mica had older and much utilized furniture and that he is not one to purchase new items frequently. So I requested that they accept only what they felt they could use and that would be acceptable in the St. Augustine office and to return anything they didn't want with the movers

- The furniture was delivered on Monday (1/25/13). I contacted the St. Augustine office during the move-in. They said everything went well, most of the items were accepted. I received no feedback of dissatisfaction with the delivery, placement of the items, quality of the furniture or the service in general.

- I received this message with the accompanying complaints and allegations today during my return from the Region 4 COOP exercise. I immediately called Shira Lahav to clarify what the problems were. I informed Shira that I can arrange to pick up any items that they identify to be unsuitable. I also informed her that there is not a stock of available excess furniture, but when we do locate pieces that seem to be suitable for congressional office use, we contact the local office and offer those items to them.

- I also referred Shira to First Call. I said that if they were in need of new furniture to replace any or all items that GSA delivered that they can't use, First Call could advise and assist them in the purchasing process. Shira informed me that she "would NOT be buying ANY furniture." I reiterated that GSA does not have a warehouse of excess furniture to provide and that we also cannot provide new furniture to them. New furniture would have to be purchased through First Call. And, I again referred her to the First Call office.

- After the call concluded with Shira, I contacted Carlos Leon at First Call. Carlos had been copied on the original message below. Charlene Best was in Carlos' office and she had just gotten off the phone with Shira Lahav. In short, Charlene relayed the same information to Shira that I had. I informed Carlos and Charlene that I would check with my movers to see what guidance they had received from Rep. DeSantis' staff in St. Augustine as to placement of the furniture. But as I previously stated, the movers were still on-site when I spoke with the St. Augustine staff and they did not indicate any dissatisfaction

with the service they were receiving.

I will conclude this as I've gotten too verbose, as usual. My intent is to inform you of the potential issue(s) in case it is elevated. I also intend to work to correct what I can and salvage the situation as much as possible. Unfortunately, this happens frequently in these transitions and the finger gets pointed at GSA as the culprit. I received a similar e-mail from this same person (Shira) two weeks ago with similar accusations but primarily having to do with their computers and other electronic equipment. I won't go into the details here, but GSA was made the culprit in that e-mail, as well. The solution from the CAO was to send 4 free computers to the district office. I think Shira is looking for that solution to this issue, too. Carlos and Charlene said that is not going to happen.

Please let me know if you have any questions.

Shira,

I am sorry that the furniture delivered is not what you, the local staff or the Congressman find suitable for the St. Augustine office and I understand the collective frustration with the transition process in general.

One thing I must make clear is that the furniture and equipment is House Property. I transport it between offices, and into and out of storage, as directed. It is not furniture that I selected or "deemed usable". It is simply the furniture that remained from Rep. Mica's closed offices and a few items from former Rep. Adam's Oviedo office that Rep. Mica did not utilize. No additions or subtractions on my part. My role in this matter was to comply with Congressman DeSantis' letter stating that he "would like to have any and all excess properties or furnishings no longer needed or being used by Congressman Mica within his district offices". I simply delivered the very furniture and equipment that Reps. Mica and Adams had been using up until the end of the 112th Congress.

- I did specifically inform the St. Augustine office staff that Rep. Mica had older and much utilized furniture and that he is not one to purchase new items frequently. So I requested that they accept only what they felt they could use and that would be acceptable in the St. Augustine office and to return anything they didn't want with the movers.

- The furniture was delivered on Monday (1/28/13). I contacted the St. Augustine office during the move-in. Robert Mons indicated to me that everything went well, most of the items were accepted I believe, but I've not yet seen an inventory of the rejected items. I received no feedback of dissatisfaction with the delivery, placement of the items, quality of the furniture or the service in general from Robert.

Moving ahead:

- I can arrange to pick up any items that are identified to be unsuitable. However, be aware that there is not a stock of available excess furniture. When I become aware of excess pieces of furniture that seem to be suitable for congressional office use, I will contact you or the local office and offer those items to them.

- I understand that you have spoken with Charlene Best of the First Call office. If there is a need for new furniture to replace any or all of the items that GSA delivered that the St. Augustine office can't use, First Call can advise and assist in the purchasing process. New furniture will have to be purchased through First Call.

I regret that you find this transition has been completely unacceptable and that the Congressman feels that he is getting the runaround regarding the set-up of his district offices. That is certainly what I work to prevent with the limited tools I have available. I also regret that you feel the need to speak to my "supervisor or someone else". I work hard to assist all of my congressional customers and take pride in providing all the support I can within the guidelines and limitations we have. I assure you that I have already forwarded your message to my supervisor.

In the meantime, you must recognize that you are directing the blame to me and GSA on matters that we do not determine. I have complied with every request and change to those requests that you have made. And two weeks ago when you had issues with the district equipment, who do you think figured out the disconnect and put you in touch with those who could provide some resolution?

I will continue to assist in any way that I can. I appreciate your frustration. But, I would rather not receive any more of these accusatory e-mails from you. If that is not possible, please direct your requests through the First Call office and I will take my instructions from you through them.

Please let me know if you have any questions and how you wish to proceed.

Randy – hope this email finds you well. Included on this email is Cynthia who works in the St. Augustine DO – it appears that we have “extra” furniture in the office that we’d like to talk with you about as far as returning to GSA or storing – (not sure how this process works) – feel free to email or call Cynthia directly (at your earliest convenience) at 904-827-1101

Thanks, as always!
Shira

Good Morning Shira,

The removal process is initiated with an "Equipment Removal Form" (available on HouseNet). The completed form must be signed by the Member and then sent to First Call. First Call will process the Equipment Removal Form, which basically means that they confirm that the respective property is removed from the Member's inventory. Once done, they send the form to me and that form serves as my authorization to arrange and expend funds to have the property dispositioned in an appropriate manner. (FYI: Those funds do not come from the MRA)

I spoke with Roy Alaimo in the St. Augustine office a few minutes ago and briefly went over this process. If I receive the completed form early this week, I should be able to arrange to have the items removed before the end of the week.

Shira,

The cost of the removal is paid by GSA with funds that are reimbursable from the House. However, that cost is not charged to the Member's MRA. There is no cost to your office.

Good afternoon Shira,

The process is pretty much the same as for the DC office. An Equipment Removal Form (available on HouseNet) is filled out with the respective items information and then signed by the Member. This form is sent to the First Call office there in DC. It can be sent directly to kelly.boger@mail.house.gov, since she handles the Florida offices. Kelly processes the Equipment Removal Form (ensures the items are removed from the inventory in the CAO database) and then she sends a copy on to me. This becomes my authorization to have a vendor come and remove the items and have them disposed of properly. That's pretty much all there is to it.

Regards,

Randy Beers

Shira,

Have you sent a district office opening letter to First Call?

Is the space ready to be occupied or is work being done on it, etc?

And/Or

When does the lease become effective and you can occupy the space?

Shira,

Have you sent a district office opening letter to First Call?

Is the space ready to be occupied or is work being done on it, etc?

And/Or

When does the lease become effective and you can occupy the space?

Subject: Issues with District Office

To: "randy.beers@gsa.gov" <randy.beers@gsa.gov>

Cc: "Roth, Justin" <Justin.Roth@mail.house.gov>

Randy:

I hope this email finds you well. Getting our district up and running has certainly been a frustrating process, and while I am a patient person and can appreciate how busy things are during the transition, frankly – my patience is running out and it's time to get some answers and get this set up complete.

Attached you'll find the list of our inherited district inventory complete with 10 Desktops (9 Dell, 1 HP) and 4 Laptops (3 Dell, 1 HP).

To date, we are still unable to access the house network and log in to the computers because of improper set up.

The Set Up in Port Orange consisted of:

- 1 HP Desktop (serial number L1908wm) – with a “To Be Removed by GSA” Sticker on it – (I can only wonder...Why was this installed in the first place?)
- 1 Dell Laptop CAO Sticker B304040
- 1 HP Compaq 8510 US House of Rep Sticker A289505
- Cannon CanoScan LiDE 200- Has a House of Rep sticker, but no inventory number

As you can see, none of these items appear on our inventory – What happened here?

I need 3 of the Desktops from the inventory delivered and installed to the Port Orange Office IMMEDIATELY. Our district staff has been unable to log-in to the network for 2 weeks now, and this is unacceptable.

Next week, our lease will be finalized in St. Augustine. That office will require: 4 Desktop Work Stations and the HP Printer Set Up and Installed on January 22 or 23 (exact date TBD, which I'll get to you by the end of the week).

That will leave us with 3 Desktop Computers and 4 Laptops remaining in our inventory.

I sincerely hope you can appreciate my frustration with this transition process. **I have assured my district staff I am on it and that the Port Orange office will be up and running by this Wednesday morning** – And I am not going to leave my district staff hanging on this.

Randy – I'm not about placing blame, finger pointing, or anything like that – all I know is this needs to be fixed and needs to be fixed now. Truth be told, our Congressman is beginning to feel like a second-class citizen in this transition because it seems as though little attention or regard is being paid to setting up his district office(s).

I'll welcome a phone conversation if you'd rather – but either way, I'll look to hear from you tomorrow morning. It's time to get on the same page with this so that I can get my offices going.

Best,
Shira

Hi Shira,

Thanks for reaching out to your GSA representative Randy Beers, concerning your district office equipment. You were provided with an inventory list of items that were supposed to be in your district office. However, most of those items had been shipped by the former Member to the DC office without our knowledge. Therefore, the equipment that you are referring to as “missing” in your district office is currently installed in your Washington, DC office. Also, please know that had that equipment not been installed in your DC office we would have purchased new ones (up to ten) at cost to your Member’s MRA.

With that said, we are making arrangements to immediately ship four computer units at no costs to your office to ensure your office can be up and running as soon as possible. We will also work with you to purchase additional units (approx. \$1027.00 per unit) should you desire. These additional units are available for purchase under the repayment plan (24 monthly equal payments).

Thank you, and you may contact me for further assistance.

Carlos

Randy,

There are two parts of this issue. One is that the computers that were listed on the Port Orange inventory were found in DC during the final inventory of Congresswoman Adams. I will let you know how to proceed.

Thank you,
Carlos

Carlos,

I need to talk with someone about the message below which I received this morning. I've already done some checking on this and have some answers, but ultimately someone from the CAO/First Call office is going to need to contact the sender, Shira Lahav, of Congressman DeSantis' staff.

Randy Beers

Congressional Services Representative

Subject: Issues with District Office
To: "randy.beers@gsa.gov" <randy.beers@gsa.gov>
Cc: "Roth, Justin" <Justin.Roth@mail.house.gov>

Randy:

I hope this email finds you well. Getting our district up and running has certainly been a frustrating process, and while I am a patient person and can appreciate how busy things are

during the transition, frankly – my patience is running out and it's time to get some answers and get this set up complete.

Attached you'll find the list of our inherited district inventory complete with 10 Desktops (9 Dell, 1 HP) and 4 Laptops (3 Dell, 1 HP).

To date, we are still unable to access the house network and log in to the computers because of improper set up.

The Set Up in Port Orange consisted of:

- 1 HP Desktop (serial number L1908wm) – with a “To Be Removed by GSA” Sticker on it – (I can only wonder...Why was this installed in the first place?)
- 1 Dell Laptop CAO Sticker B304040
- 1 HP Compaq 8510 US House of Rep Sticker A289505
- Cannon CanoScan LiDE 200- Has a House of Rep sticker, but no inventory number

As you can see, none of these items appear on our inventory – What happened here?

I need 3 of the Desktops from the inventory delivered and installed to the Port Orange Office IMMEDIATELY. Our district staff has been unable to log-in to the network for 2 weeks now, and this is unacceptable.

Next week, our lease will be finalized in St. Augustine. That office will require: 4 Desktop Work Stations and the HP Printer Set Up and Installed on January 22 or 23 (exact date TBD, which I'll get to you by the end of the week).

That will leave us with 3 Desktop Computers and 4 Laptops remaining in our inventory.

I sincerely hope you can appreciate my frustration with this transition process. **I have assured my district staff I am on it and that the Port Orange office will be up and running by this Wednesday morning** – And I am not going to leave my district staff hanging on this.

Randy – I'm not about placing blame, finger pointing, or anything like that – all I know is this needs to be fixed and needs to be fixed now. Truth be told, our Congressman is beginning to feel like a second-class citizen in this transition because it seems as though little attention or regard is being paid to setting up his district office(s).

I'll welcome a phone conversation if you'd rather – but either way, I'll look to hear from you tomorrow morning. It's time to get on the same page with this so that I can get my offices going.

Best,
Shira

- Cannon CanoScan LiDE 200- Has a House of Rep sticker, but no inventory number

As you can see, none of these items appear on our inventory – What happened here?

I need 3 of the Desktops from the inventory delivered and installed to the Port Orange Office IMMEDIATELY. Our district staff has been unable to log-in to the network for 2 weeks now, and this is unacceptable.

Next week, our lease will be finalized in St. Augustine. That office will require: 4 Desktop Work Stations and the HP Printer Set Up and Installed on January 22 or 23 (exact date TBD, which I'll get to you by the end of the week).

That will leave us with 3 Desktop Computers and 4 Laptops remaining in our inventory.

I sincerely hope you can appreciate my frustration with this transition process. **I have assured my district staff I am on it and that the Port Orange office will be up and running by this Wednesday morning** – And I am not going to leave my district staff hanging on this.

Randy – I'm not about placing blame, finger pointing, or anything like that – all I know is this needs to be fixed and needs to be fixed now. Truth be told, our Congressman is beginning to feel like a second-class citizen in this transition because it seems as though little attention or regard is being paid to setting up his district office(s).

I'll welcome a phone conversation if you'd rather – but either way, I'll look to hear from you tomorrow morning. It's time to get on the same page with this so that I can get my offices going.

Best,
Shira

Shira Lahav

Operations Director, Congressman Ron DeSantis (FL-6)

Hi Shira,

Thanks for reaching out to your GSA representative Randy Beers, concerning your district office equipment. You were provided with an inventory list of items that were supposed to be in your district office. However, most of those items had been shipped by the former Member to the DC office without our knowledge. Therefore, the equipment that you are referring to as "missing" in your district office is currently installed in your Washington, DC office. Also, please know that had that equipment not been installed in your DC office we would have purchased new ones (up to ten) at cost to your Member's MRA.

With that said, we are making arrangements to immediately ship four computer units at no costs to your office to ensure your office can be up and running as soon as possible. We will also work with you to purchase additional units (approx. \$1027.00 per unit) should you desire. These additional units are available for purchase under the repayment plan (24 monthly equal payments).

Thank you, and you may contact me for further assistance.

Carlos

Randy:

I hope this email finds you well. Getting our district up and running has certainly been a frustrating process, and while I am a patient person and can appreciate how busy things are during the transition, frankly - my patience is running out and it's time to get some answers and get this set up complete.

Attached you'll find the list of our inherited district inventory complete with 10 Desktops (9 Dell, 1 HP) and 4 Laptops (3 Dell, 1 HP).

To date, we are still unable to access the house network and log in to the computers because of improper set up.

The Set Up in Port Orange consisted of:

- * 1 HP Desktop (serial number L1908wm) - with a "To Be Removed by GSA" Sticker on it - (I can only wonder...Why was this installed in the first place?)
- * 1 Dell Laptop CAO Sticker B304040
- * 1 HP Compaq 8510 US House of Rep Sticker A289505
- * Cannon CanoScan LiDE 200- Has a House of Rep sticker, but no inventory number

As you can see, none of these items appear on our inventory - What happened here?

I need 3 of the Desktops from the inventory delivered and installed to the Port Orange Office IMMEDIATELY. Our district staff has been unable to log-in to the network for 2 weeks now, and this is unacceptable.

Next week, our lease will be finalized in St. Augustine. That office will require: 4 Desktop Work Stations and the HP Printer Set Up and Installed on January 22 or 23 (exact date TBD, which I'll get to you by the end of the week).

That will leave us with 3 Desktop Computers and 4 Laptops remaining in our inventory.

I sincerely hope you can appreciate my frustration with this transition process. I have assured my district staff I am on it and that the Port Orange office will be up and running by this Wednesday morning - And I am not going to leave my district staff hanging on this.

Randy - I'm not about placing blame, finger pointing, or anything like that - all I know is this needs to be fixed and needs to be fixed now. Truth be told, our Congressman is beginning to feel like a second-class citizen in this transition because it seems as though little attention or regard is being paid to setting up his district office(s).

Randy,

There are two parts of this issue. One is that the computers that were listed on the Port Orange inventory were found in DC during the final inventory of Congresswoman Adams. I will let you know how to proceed.

Thank you,
Carlos

Good morning Lisa,

I was hoping to touch base with you regarding an issue that has been going on in Florida's 6th Congressional District in St. Augustine, but I believe could be more wide-spread from discussions with the House Veteran Affairs Committee. There is a VA Community Based Outpatient Clinic in St. Augustine whose property was purchased by Lowe's a year ago and is set to take control of the property after March of next year. Due to delays in the leasing process for future VA CBOCs, etc., there isn't concrete plans right now on what to do to continue service to the area's 5,000 veterans.

Our understanding is that the county has offered land free of charge for the VA to set up a modular temporary facility while the longer-term facility is constructed since they won't be able to complete it by March 31 of next year. Things looked like they were going forward until a cease and desist order was given by the VA due to what they claim is a nation-wide moratorium on new leases while an inter-agency dispute between the GSA and the VA is resolved.

In the meantime, the local community and its veterans have unclear information about the continuation of services as well as being held up from continuing them on a temporary basis at the modular unit due to this agency dispute. I was hoping you could potentially shed some light on what is causing this if this is the case? Congressman DeSantis and Senator Rubio wrote a letter regarding the issue to the VA Acting Secretary last week, and I know they continue to be dismayed by what is causing these problems.

Thanks,

-Dustin

Dear Congressman Desantis, My name is Michael Carini. I am currently a member of the Florida Army National Guard. I am assigned to Charlie Battery 1/265 air defense artillery. I am currently deployed to Afghanistan, when I was activated for active duty I was told about the army's daycare assistance that is available for national guard soldiers who are activated for active duty. After reading from naccrra.org website which is the agency in charge on how to file the application we did as it instructed us too. We couldn't file until after a month because they needed a month worth of LES's. After filing we waited. A month went by and did not hear anything. I tried calling and never had anyone answer the phone. I then had to leave a voice mail and a call was never returned. I then emailed and received a generic email stating I will be contacted but never was. I received an email from them to make a correction to the application and my wife fixed it and sent it back. We have been trying to hear back from anyone from the agency but no one has ever contacted us about our status. We then contacted my units family readiness group. They have been trying to contact them but got the same results. We submitted the application in April and now it is July. In my civilian job I am a police officer and my children do not go to daycare full time because of my rotating shift. Now that I am deployed they have to go full time. The price of daycare is \$340 a week for two children. Due to the cost of daycare my wife's paychecks basically pay for the daycare which is leaving only mine to pay for bills and groceries. Since the daycare assistance has not kicked in money is very tight for my family back home. My wife is stressed about me being deployed in a hostile area and now she is getting even more stress financially. The family readiness contacted my wife yesterday and told her no one for their office can get a hold of anyone. They also said we are not the only family having this problem. In their email they told my wife it has never been this much trouble and we should contact our congressman. Congressman I am asking you to please look into this matter. Due to the cost of daycare my wife is going to have to quit her job since she is just working to pay for daycare. There is only so much I can do here from Afghanistan to help her that is why I am writing you. I provided my wife's phone number so if someone from your office wants to find out more information they can call her. My wife's name is Ashley Carini. Thank you for taking the time to read this email and I hope you are able to help us in this situation. Thank you Michael Carini

Michael J Carini

Brett, Nate - see IQ notes below from P (Schelbert) referencing speaking with you all about this control. Let me know if this is something that should be controlled to S to draft the response as P is requesting or if P should proceed with drafting as was the original plan. Thanks. Erin

Subject: V A /G S A C ommunity Based Outpatient C linic Issue

Good morning Lisa,

I was hoping to touch base with you regarding an issue that has been going on in Florida's 6th Congressional District in St. Augustine, but I believe could be more wide-spread from discussions with the House Veteran Affairs Committee. There is a VA Community Based Outpatient Clinic in St. Augustine whose property was purchased by Lowe's a year ago and is set to take control of the property after March of next year. Due to delays in the leasing process for future VA CBOCs, etc., there isn't concrete plans right now on what to do to continue service to the area's 5,000 veterans.

Our understanding is that the county has offered land free of charge for the VA to set up a modular temporary facility while the longer-term facility is constructed since they won't be able to complete it by March 31 of next year. Things looked like they were going forward until a cease and desist order was given by the VA due to what they claim is a nation-wide moratorium on new leases while an inter-agency dispute between the GSA and the VA is resolved.

In the meantime, the local community and its veterans have unclear information about the continuation of services as well as being held up from continuing them on a temporary basis at the modular unit due to this agency dispute. I was hoping you could potentially shed some light on what is causing this if this is the case? Congressman DeSantis and Senator Rubio wrote a letter regarding the issue to the VA Acting Secretary last week, and I know they continue to be dismayed by what is causing these problems.

Thanks,

-Dustin
